## Hidden Compartment Training

Experience the most advanced training in hidden compartment detection with Dynamic Police Training (DPT). Our TrapMate\* class is designed to provide you with the most up-to-date information, materials, and techniques to detect hidden compartments inside passenger and commercial motor vehicles.

Our class features live trap videos, pictures, in-car recordings, and other materials that depict hidden compartments in their entirety from start to finish. You'll learn about electronically operated dash traps, center console traps, seat traps, floor traps, roof traps, rocker panel traps, front and rear quarter panel traps, and sophisticated intake manifold traps, oil pan traps, firewall traps, gas tank traps, tire traps, muffler traps, and many more!

Our instructor, Jeramy Ellison (AKA) Trap Master J, has over 12 years of Law Enforcement experience in Texas and Illinois. He has seized millions of dollars in U.S. currency derived from illicit criminal activity, over a thousand pounds of hard narcotics, and a staggering amount of hidden compartments. Jeramy is also deemed an expert in courtroom testimony related to criminal interdiction and hidden compartments.

After taking the TrapMate\* class, you'll have an in-depth understanding of how drug cartels and other criminal organizations utilize compartments to smuggle contraband throughout the U.S. You'll be able to identify specific vehicles and hidden compartments effectively, efficiently, and professionally. You can then take this knowledge and make a real difference in your local communities, roadways, and highways.

Register now for the TrapMate\* class and learn to become a Trap Master! As an added bonus, any student who attends the TrapMate\* class and locates a hidden compartment within a year of the class will receive a complimentary challenge coin for their accomplishment and join the elite "Trap Master Club". Don't miss out on this opportunity to enhance your skills and make a difference.
