

ADVANCED BLOODSTAIN ANALYSIS

This course provides students an opportunity to advance previously acquired basic bloodstain analysis principles. The course includes extensive case study reviews, focused on identifying, defining and analyzing bloodstains from actual investigations. Participants will conduct advanced laboratory exercises, observing how blood reacts in known conditions and how scene-specific variables can influence the distribution of blood patterns.

COST:

\$750 PER STUDENT

DATE/TIME:

**AUGUST 5-9, 2024
8 A.M. - 5 P.M.**

LOCATION:

**SAINT LEO UNIVERSITY
LEWIS HALL #208
33701 CR 52
ST. LEO, FL 33574**
